Ex. 22 Directive to Staff to open a rulemaking docket to establish a standard rate of return on equity for investor-owned electric and gas utilities. This standard will be used as the authorized return for those utilities within 180 days after it is established absent a filing and demonstration by any affected utility that a different rate is warranted. Among other factors the established standard return should take into consideration the following recent developments: stabilization of capital markets, lower interest rates and long-term treasury yields, reduced risk to utilities resulting from advance approval of major capital additions, increased use of riders allowing immediate recovery of expenditures, and the use of securitization to fund storm repairs and cancellation costs. Staff is additionally directed to issue RFPs within 30 days seeking outside consultants and counsel to assist in this docket.
